RESEARCH PROJECTS

CURRENT

2025-2026

Collaboration within the international consortium working on the “Annotation standard for Non-Manual elements in visual communication (ANM)” project, guided by the University of Amsterdam. <https://nonmanuals.net/>

2024-2029

Partner within the International Research Network (IRN) “TypologyAcrossModalities ([TypMod](#))”. P.I: Patricia Cabredo Hofherr (CNRS & Paris 8).

2021-2025

Collaborator within the project “Signed Language Depiction as an Engine for Promoting Inclusion, Communication, and Translation (DEPICT)” (WP5 – Depiction in deafblind interpreting). PI: Benjamin Anible (Norwegian University of Science and Technology), Gro Hege Saltnes Urdal (Western Norway University of Applied Sciences). <https://www.hvl.no/en/research/prosjekt/depict/>

Non-funded projects:

“Biased *wh*- questions in Catalan Sign Language”, in collaboration with Josep Quer (Catalan Institution for Research and Advanced Studies and Pompeu Fabra University).

“Contrast in coordination and subordination in Catalan Sign Language”, in collaboration with Alexandra Navarrete-González (BCBL - Basque Center on Cognition, Brain and Language).

“Data collection methodology in tactile signed languages”, in collaboration with Laura Volpato (Ca’ Foscari University of Venice).

PREVIOUS

2022-2023

The Whole-Entity Classifiers in Sign Languages: A Multiperspective Approach (PI: Vadim Kimmelman, UiB) funded by the Centre for Advanced Study (CAS) at the Norwegian Academy of Science and Letters.

2016-2020

Collaborator within the Horizon 2020 SIGN-HUB project (“Preserving, researching and fostering the linguistic, historical and cultural heritage of European Deaf signing communities with an integral resource”). Funded by the European Commission within Horizon 2020 Reflective Society 2015, Research and Innovation actions.
